SUBJECT: *Council Subcommittee Panels B/C Applicant Interviews*

BACKGROUND: Pursuant to City Council Rules, §14, the City shall solicit boards and commissions (B/C) applications. The B/C recruitment period was open to new applicants as well as applicants seeking reappointment. The B/C recruitment announcement was published on social media, utility insert and website starting in the month of August through mid-October. The application is available online in multiple languages on the City's webpage. The B/C applications are accepted year around and remain active for one year from the date of submittal. Interviews are conducted annually after open recruitment period ends for the year. Applicants must attend an interview in order to be eligible for reappointment and appointment.

PURPOSE: At the September 27, 2021, work session, Council consensus was to assign two Council Subcommittee Interview Panels based on liaison positions. The Council Subcommittee Interview Panels #1 & #2 are assigned as follows:

   - Each new applicant is allotted 15-minutes to interview and reappointment applicant is allotted 10-minutes to interview.
   - The general interview questions will be emailed to each applicant in advance.
   - Please choose from the interview questions provided or the subcommittee may compose their own. Please try to ask the same questions of each applicant.

3. Attachment C: B/C Applicant Interviews listed by Council Subcommittee Panels #1 & #2 (colored coded accordingly), along with B/C Applications. An amalgamated spreadsheet contains the list of new and reappointment applicants.

Once the Council Subcommittee Panel interviews are concluded, Council will reconvene at approximately 7:30 p.m. and jointly interview new Budget Committee and new and reappointment Planning Commission applicants. The Budget Committee reappointment applicants were not selected for an interview due to limited time (applications attached). Also, Council is familiar with the work of the Budget Committee members who reapplied.

Lastly, Council is asked to deliberate and select the appointments. Note: Reappointments do not count as a vacancy; however, the Council may choose to not reappoint a member and in doing so, create a vacancy for a new applicant. The spreadsheets shows the current vacancies in **Red**.

Are you a student applicant? (Students must be high school grade level and residing or attending school in Forest Grove). Student appointees may serve on any board, except Budget Committee and Planning Commission.

If so, which grade level and school do you attend?

Do you reside within the City limits?
No

Years residing in Forest Grove.

40

How did you hear of this opportunity?
Councilor member

Please rate the City's performance.
Fair

What ideas do you have for improving "Fair" or "Poor" performance?
Expand the knowledge base of the committees membership and the city council members about accessibility and inclusion. Affordable housing is not considered affordable if you are required to own a automobile and drive because it's not safe to walk, roll or ride . All because of a failure of the public representation understanding of people's civil rights and how they are applied to everyone.
This is from the perspectives of an observant well informed forward thinking creative person.

Please select your top three preferences that fit with your schedule the best:
- Community Policing Advisory Commission (Meeting date/time TBD)
- Parks and Recreation Commission (3rd Wednesday, 7am)
- Urban Renewal Advisory Committee (4th Thursday, 10am)

What specific topics interest you that relate to the board(s)?
Disability rights, accessible multi modal transit system for everyone, connecting affordable housing projects to shopping centers and downtown areas with shared roads or bike lanes integrated with safe routes to schools, increasing public safety and awareness with the outcome being safe routes to retirement community centers downtown areas and shopping on low power mobility devices like adult trikes and what ever get people moving without the automobile . Many of these issues are ignored, but government funding projects and grants all have requirements that is overlooked and not included in the planning process.

What contributions do you hope to bring to the board(s)?
Outside of the park thinking that works for everyone. Years of experience dealing with ODOT's civil rights department, nudging the adaptive mobility devices and OPDMD policies and the requirements for each committee to have a voting member with a disability that would be affected by the decision made by that committee.
Civil rights and inclusion starts in the planning process not in the compliance enforcement aftermath.

List your educational experience:
Interesting, grew up in Kensington, Philadelphia , very poor we walked miles for a bag of government commodities caned spam, dry milk and the world famous American Cheese. Public transportation and walking for transportation. West Philadelphia went to a99 % inter city elementary and middle school. That was when MLK was killed so I lived through racial violence in schools and police officer's actions that were outrages then as now. I lived close to where Mayor Goode fire bombed the house up the road from us.
GED and life

List any community involvement, appointed offices, elected offices and/or affiliations:
FG school board member when we desegregated, school district 15 . Before that the district budget committee, facilities task force.
Now I am involved with ODOT and transportation accessibility issues, mostly around equity and accessibility requirements for city government and public transit projects. Connecting affordable and accessible housing projects to shopping center and downtown areas. Life without the requirements of automobile ownership , Forest Grove has the requirements of a automobile to survive living here. And the city builds the city without travel options.

If not appointed at this time, may we keep your application on file?
Yes

High School Senior/12th grade

Please select which board(s) you would like to be considered for appointment:
- Committee for Community Involvement (1st Tuesday, 5:30pm) Term Exp 1/31/23
- Community Policing Advisory Commission (3rd Thursday, 6:30pm)

Within the last 12 months, please indicate the number of meetings you were unable to attend.
I didn't miss a single meeting in my first year appointed to the Committee for Community Involvement, including all ATM's, QTM's and QTM dry run/practice meetings.

Please indicate why you would like to be reappointed.

CCI: I've become very attached to the other Committee members and would like to continue to work alongside them. Since the last QTM was successful I would also like to continue facilitating meetings like that one. I'd also like to continue my involvement in this committee in the interest of holding the ears of people's whose jobs are to involve community members in government decisions so long as my Youth Advisory Council must continue to campaign for increased youth involvement in the form of a YAC.
CPAC: I feel a great deal of curiosity regarding how much influence the committee members truly have over the local law enforcement, so I might as well find out by trying my hand at doing that influencing.

What specific topics interest you that relate to the board?
CCI: I'm interested in improving the lives of our local homeless community and in knowing the whole truth about new developments in the community before they make headlines.
CPAC: I'm interested in finding out why sometimes I see four police cars are pulled over with their lights flashing just to talk to one lone man who clearly isn't that dangerous since everyone is just standing around talking. I'm interested in hearing police officers' own opinions on the Blue Lives Matter movement and similar pro-policing rhetoric, too.

Please rate the City's performance.
Fair

What ideas do you have for improving "Fair" or "Poor" performance?
Members of the city government should be expected to respond to and to initiate email-based conversations in a more timely manner on a more consistent basis. We should not allow Forest Grove's city council, mayor, or anyone else in a position of municipal power to behave ever again as they have been regarding the proposed Youth Advisory Council, i.e. spending a whole year leading us to believe that we just need to make one more minute edit to our bylaws before they make us an official committee only to claim that nobody was aware of anything we'd been doing for the past year immediately before advising us to try again in another year. In short, the city needs to get its act together when it comes to communications within and without.

Please select which board(s) you would like to be considered for appointment:
Community Policing Advisory Commission (3rd Thursday, 6:30pm)

Within the last 12 months, please indicate the number of meetings you were unable to attend.
Three. I. I had a work conflict. 2nd and 3rd, the city had the wrong email address for me, and so I didn't receive meeting notifications and reminders, although ultimately I hold myself responsible for missing the meetings bc I could have checked the city calendar and received the information. I am committed to meeting my obligations on the committee, and wish to continue going forward

Please indicate why you would like to be reappointed.
I believe the CPA Committee is incredibly important to continue to look at how FGPD can better and more equitably serve the ever diversifying FG community. In light of recent events in policing locally and nationally, I feel it is extremely important that we continue to expand our coalition of community members who want to maintain a safe, supportive, and economically viable community while at the same time protecting the rights of our residents and business owners regardless of color, age, socioeconomic status, sexual orientation, or mental health. CPAC should continue to advise our elected officials on improving community policing, and restoring faith in our law enforcement system, and I'd like to leverage my time and experience working in government, non profit, and the private sectors to support CPAC in this work.

What specific topics interest you that relate to the board?
- establish full trust and faith in our law enforcement system through improving how police interact with the residents they are sworn to protect and serve, honoring our constitutional rights, expand the voice of community towards this end, and explore bridges between LE and the community
- explore alternative approaches to some aspects of FGPD daily work, especially in the areas of supporting/serving mental health and medical emergencies, to lesson the costs to FGPD, and the risk to the public
- assessing and exploring alternatives associated with FGPD use of force policies and guidelines to see if there are options to improve

Please rate the City's performance.
Good

What ideas do you have for improving "Fair" or "Poor" performance?
- improve communications between FGPD and community, particularly around high profile, high conflict issues, including increased use of social media, multiple languages, and getting FGPD out of patrol cars and walking neighborhoods and downtown , increasing approachability of our peace officers and building relationships with community members
- assess and consider options for altering how, when, and what types of traffic stops are made by FGPD towards reducing potential risks towards community members, particularly those who are low income, POC, or suffer mental health or medical conditions
- assess and consider options towards FGPD use of force policies and guidelines with an eye to reducing risk to citizens and our LE officers during high conflict interactions

2 meetings.

I was just getting going with the commission and learning what the City of Forest Grove Parks and Rec Department has done in the past, and where I think it can go. For me there is unfinished

business here, and the parks and recreation department can move towards a more fiscally sustainable model.

What specific topics interest you that relate to the board?
Recreation programming, and other enterprise programs. Moving the department in the direction of a more fiscally sustainable model. The potential of a recreation facility in the city. I feel Forest Grove has a nice park system that has received a lion's share of the attention. It is time to give recreation a chance.

Please rate the City's performance.
Good

What ideas do you have for improving "Fair" or "Poor" performance?
I know I typed fair, but I want to emphasize the idea that the city has hired smart capable people and we as a community, commission, and city government need to allow those who have been hired the space and support to operate in the best way possible for them.
